The following is an examiner's statement of reasons for allowance: Upon careful consideration of the guidance provided at pages 6-7 of the "Decision on Appeal and Opinion" mailed September 26, 2005, the following conclusions are made. The evidence provided by the Tash and Locke references is insufficient to establish a prima facie case of obviousness. The Tash plunger does not appear capable of being used inside a drain to create a seal in the manner as taught by Locke in Fig. 4. Therefore, a hypothetical combination of the Tash and Locke disclosures is considered improper. Absent any other known grounds of rejection (37 CFR 1.196(b)), claims 1-4 and 6-17 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The proposed drawing corrections filed on March 06, 2003 and October 06, 2003 have been approved.
